Erosion

Meander

Flood Plain

Permeable Rock

Impermeable Rock

Dutchman Mine

Boulton and Watt Steam Engine

Horse Whim

Climbing Shaft

Haulage Shaft

Pipe Vein

River at 200m above Sea Level

Engine House at 300m above Sea Level

Difference =?

Bingham Copper mine, Utah, U.S.A.

4,000m (2½ miles) across and 1,200m (¾ mile) deep

Grindon Church is 4,000m (2½ miles) away, but we can't see it! Butterton Church is nearly 3,200m (2 miles) away, which will give an idea. The pit is 12 times deeper than the height climbed from the road to the Engine House!
